Welcome to Tips For Child Care Institute

TIPS for Child Care Institute, Inc. is an international Vocational Institute that seeks to foster the development of early care and learning adult learners throughout their entire education. We are a student focused institute, our teaching community is made up of a group of talented and creative professionals, who are passionate about creating the best Early Childhood Vocational School with a focus on Praxis Based strategies. TIPS for Child Care Institute, Inc. offers the tools and support necessary for our adult learners to reach their full potential. We adopt and implement the use of research and evidence based course and framework into every instructional package. We hold our students to the highest standard of excellence, a TIPS Certified teacher has demonstrated mastery of early learning competence prior to applying for their Credential Status. Every students process is manually reviewed with a dialogue of areas of strengths and improvement our instructors build and support them in maximizing on their full professional potential.

Our Enriched Virtual Classes are for anyone who wants a weekly live session with other practitioners, and for students or agencies who want more accountability and firm assignment due dates to support in meeting compliance deadlines. Basic computer skills and a stable Internet connection is required for these courses.

- **A weekly live class session - Courses meet once a week for 1 hour**
- **Morning, evening and weekend live session times to accommodate different time zones**
- **Firm, weekly assignment due dates - Students are asked to put 5-10 hours a week aside to work on out of class assignments**
- **A cohort of students taking the same course at the same time who start and end together**
- **Courses for every subject area that meet the Child Development Associate (CDA) Credential Criteria**
- **You still have the opportunity to call, email, or text message with your teacher throughout the week as always!**

Home Visitor Credential Readiness Course

Online, Hybrid, Enhanced

Enrolling in this course will provide participants with our hands-on, innovative class for students of every background. Our qualified and experienced teachers serve as facilitators of the learning process. Instead of simply lecturing, they guide students by helping to make sense of course materials, encouraging them to ask questions and explore solutions, and promoting the use of resources outside of the classroom.

Featured Components:

- Parenting (CSEFEL)
- Advocacy and Awareness
- Special Education Law
- DAP
- Project Approach Model

Pre-School Credential Readiness Course

Online, Hybrid, Enhanced

This course will guide students through the foundations of the subject and beyond. Students apply their newly developed skills within a learning environment that is challenging and demands their active participation. The result is a group of inspired and proficient individuals with a drive for learning and a motivation to succeed.

Featured Components:

- Tucker Turtle (CSEFEL)
- IFSP to IEP (Transition)
- ADHD DCL
- Intentional teaching across domains
- Theory In Practice

Infant Toddler Credential Readiness Course

Online, Hybrid, Enhanced

Enroll in this 12 week online CDA training course, our hands-on, innovative class for students of every background. Our qualified and experienced teachers serve as facilitators of the learning process. Instead of simply lecturing, they guide students by helping to make sense of course materials, encouraging them to ask questions and explore solutions, and promoting the use of resources outside of the classroom. Course includes field assignments, evidence of course work implemented and weekly interaction.

Featured Courses:

- Rethinking DAP 0-3
- Interaction v. Engagement
- From Planning to Implementation

Early Education
CAREER INSTITUTE

Early Childhood Field Experience (or Early Childhood Elective Credit)

(3 credits, lower division level)

This course provides the student with practical experience in environments for young children, birth to age five. The experience affords the student the opportunity to become familiar with and demonstrate the principles and practices of early childhood. Hands-on instruction in working with children birth to age five.

Introduction to Working With Young Children

(3 credits, lower division level)

This course exposes students to competencies required in the implementation of sound environments for young children, birth to age five. The course introduces content in the following areas: planning a safe and healthy learning environment, supporting development in physical, cognitive, language and social/ emotional areas; developing relationships with-in families; program management; professionalism; observation and recording information about children; and the principles of child development and learning. Hands-on instruction in working with children birth to age five.

Our Mission

TIPS for Child Care Institute is proud to be an eligible training institute for WIOA. Our innovative teaching methods help learners really latch onto the material, and take charge of their own learning. Upon completion of certification, our students are fully prepared for their next step, whether that be continuing their education at a two or four year college or university or joining the work force.

ECE Apprenticeship

The Pathway To Career Success and Sustainability

Because ECE Providers are more than just playing with children...

Early Education Career Institute values the work of the early childhood educator and the unique role they have in children's lives. We have curated an apprenticeship program that is registered with the US Department of Labor, that preserves the historic role of the educator in a fun and joyful industry whose paramount responsibility is the care and education of young people.

- **The course is an Enriched Virtual Course integrated with theory, child development best practices and practical strategies, 840 instructional hours.**
- **Course work is provided using classroom technology, intentional teaching practices, and flipped learning techniques to aid high school students through successful use of online learning tools.**
- **Each program includes Instructor led instruction webinar, live interaction, mock interview, portfolio help and test prep.**
- **Our Hired Apprentices earn a higher industry wage for on-the-job training for over 1400 hours while work in a center based or family childcare program.**

JumpStart Your ECE Career Pathway Through EECE Apprenticeship

Preparation and Education

We understand we are not just competing for industry wages but sustainable wages across multiple industries. Our program supports a STEAM based Criteria. CTE Students receive curriculum requirements to include financial literacy, financial mathematics, financial markets, and advanced budgeting support. It also adds concentrations program management and Home Visitation for students who want to further specialize their career. We boost district report cards for Education and Training Clusters, learners leave with 3 National Credential specializations and 6 college credit hours.

Compensation and Status

100% of our completed students earn CDA Credentials, 88% of our students move on to earn their higher education degrees or approach base certificates and 98% report career promotions and wage increases within weeks of completion. We are a US Department of labor registered apprenticeship program (RAP), we partner with CTE and local social services. We request ETPL acknowledgement to stream line the process for those eligible for WIOA, and Local Workforce support. Our RAP supports individual career paths to ensure workers move into sustainable wage employment. Dually our enrollees support middle- skill jobs which American companies currently struggle to fill.

Diversity and Inclusivity

The EECE Registered Apprenticeship Program (RAP) is specially designed to foster ECE teachers with little to no exposure to traditional higher education. All courses implement research-based elements with the use of career competence in each instructional opportunity both Related Training Instruction (RTI) and On the Job Training (OJT). Our learners leave with Career Early Childhood Educator Competency, and the soft skills needed to be successful throughout their academic and professional career.

CDA JumpStart Support Program
